Joseph Yu

Joseph Yu was born during the second world war in a small village South China. He spent his childhood as a country boy and did not receive any formal education until he came

to Hong Kong at the age of eleven. Master Yu studied Mathematics and Physics in the University of Hong Kong in the early 1960's. He abhorred all kinds of superstition and vowed to destroy such absurd beliefs of ignorant people. He then frequented libraries, trying to find fault with Astrology and Feng Shui from ancient books. The deeper he went into the subject, the more excited he became about the rich legacy of ancient Chinese culture.

In order for more people to understand what Chinese Astrology and Feng Shui are all about. Master Yu hopes that one day this valuable Chinese culture earns proper recognition by the scientific world.

Joseph Yu founded the Feng Shui Research Center in 1998 to accomplish his mission.
